Forecast for Sunday 08 Nov 2020

Weather: A dry night, with quite a lot of high cloud and perhaps some lower patches in the Trossachs. The morning will be mainly dry, and still quite bright in the west, but lower cloud in the Trossachs will gradually extend north and west to the rest of the area. Meanwhile higher cloud will thicken to bring some occasional outbreaks of rain, with a few heavier bursts likely from mid afternoon.

Chance of cloud free mountain/hill tops above 800m: 80% in the morning, but 20% in the Trossachs and gradually falling to 20% or less everywhere in the afternoon

Visibility: Mainly good in the morning but moderate occasionally poor in the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Wind-chill increasing in afternoon as it clouds over, winds freshen and temperatures on the tops edge down.

Forecast for Monday 09 Nov 2020
Weather: Mainly dry in early hours with just some drizzle. The day looks cloudy with occasional outbreaks of rain. This will be showery in nature so there will be some dry spells but also some quite heavy bursts of rain when they do occur.

Maximum wind: Southeast 20 gusts 30mph.

Chance of cloud free mountain/hill tops above 800m: 20% or less with cloud bases below 600m at times

Visibility: Moderate or good below the cloud but with flat light, and falling poor at times in heavier outbreaks of rain.

Temperature: **Glens:** Plus 11 Celsius
At 800m: Plus 6 Celsius
Freezing level: Above the summits
